b. JFK Thursday Night School & Program Update

Mr. Drezek welcomed David Iacobucci, Shannon Kudryk and Jean Haughey to the meeting.

Mr. Iacobucci gave the Board an update regarding the JFK Thursday night school program. We have had some challenges with transportation for some students as well as facility space concerns. We will continue our collaboration with Enfield Youth Services.

Ms. Kudryk reviewed the program for students during the summer. We will work with Enfield Youth Services for the Therapeutic Summer Program for JFK students in grades 6 and 7. The program will run for 4 hours, for 9 days during July. We will work with approximately 20-30 students. Students will need to follow the criteria for program.

Mr. Ryder asked where the program will be held during the summer. Ms. Kudryk stated it will be held at the Lamagna Center.

Mr. Neville thanked them for this pilot program. He knows that Mrs. Haughey is great at

getting funding. Will this cost the students anything and how long will it run? Ms. Kudryk stated it will run for 9 days Monday through Wednesday after July 4th from 9-1:00 PM. There is a permission slip that will need to be completed regarding transportation.

Mr. Neville asked about the criteria for being selected. Mr. Iacobucci stated students will be recommended by their teachers and guidance counselors based on the student's needs. There will be emotional and academic support provided for around 20-30 students. We will have a wait list to add students if students drop out.

Mr. Neville asked about the grades. Mr. Iacobucci stated this program is for students in grades 6 and 7. We will collect data to see how the students are doing in the fall at JFK.

Mr. Neville thanked them for this program.

Mrs. Riley would like them to come back and give us another update on the progress with this program.

Mrs. LeBlanc also thanked them for thinking outside of the box. We are doing a lot as a district for our students. Our kids are faced with more and more challenges and are dealing with a lot. This therapeutic program is a great idea. She knows this program will be successful. This program will also be helpful for parents during the summer.

Mrs. Hernandez is so impressed with Enfield and the support we are offering our students. Your commitment to our students is commendable. What kind of data will you be collecting.

Ms. Kudryk stated we will look at student attendance. Attendance is a huge concern and issue for some students at JFK. There are criteria that must be met to remain in the program. She does not have a rubric yet for this. Behavior and grades will be looked at.

Mr. Iacobucci stated we will look at the students that have been selected for the program and we will see if any gains have been made. Ms. Kudryk added looking at the gains made is important. Some students will never be A+ student. We are looking for progress that is made.

Mrs. Hernandez stated the social therapeutic component is important. The experience is important for the students. She would love to see the subjective data on what the students have taken from this experience. Numbers are important, but the experience is just as important. Thank you.

Mr. Regnier asked if there are any budget concerns with this program. Mr. Iacobucci stated no.

Mr. Regnier asked if this program is open to any JFK student or is it for students with IEP's and 504's. Mr. Iacobucci stated the program is open to any student. Students with 504's or IEP's will benefit from this program and are also eligible.

Ms. Kudryk stated there is a home connection component to this program where home visits will be conducted by Youth Services, Mr. Iacobucci and myself. We will be able to answer any parent questions about the program.

Mr. Regnier stated attendance is a component to the program. If they miss days will you add another student to the program. Mr. Iacobucci stated that is our plan. He is sure parents will want their child in this program.

Mrs. Depeau asked about the students with attendance concerns and do not have the family supports to get to the program. What will you do with these students. Ms. Kudryk stated she would like to get the Magic Carpet involved to transport students during the summer who

cannot get here.

Mr. Iacobucci stated if a student has been identified for the program and they can't make it due to transportation concerns, we have a plan for them. Once they have been identified, we will be ready for them in the fall with the supports they need.

Mrs. Haughey stated the home visit component can help families. We can help the families with these obstacles getting the students to us. We are trying to build strong relationships to support the student and the family.

Mr. Rutledge thanked them for this program. What you are doing goes towards our philosophy to make a difference for every child, every day.

Mr. Rutledge asked about the suspensions. Was any data collected regarding repeating offenders?

Mr. Iacobucci stated we will build from this data for the next year. We are finding the kids that are being recommended for the Thursday night school, we are not seeing them in ISS. We have found the students that are having a hard time attending Thursday night school are the repeat offenders in ISS. We need to move the program forward while addressing the needs of these students.

Chairman Kruzel thanked them for their presentation and this program.

c. District Goal Presentations

Mr. Drezek welcomed Mr. Iacobucci and Mrs. Birchall. The next two goal teams will conclude our presentations from the administrators.

Goal Team #4 – Forming and Maintaining Partnerships within our Community.

Mr. Iacobucci stated we have created up a partnership catalog to share with people who come to our schools for any potential partnerships. We also have a community resource guide with valuable information.

Mr. Iacobucci added the students have made plaques that we give to our valued partners. We are proud of our partners with the Enfield Public Schools. Mr. Iacobucci and Mrs. Birchall presented Mrs. Haughey from Youth Services with a plaque thanking her for the partnership with Enfield Public Schools.

Mrs. Haughey thanked them for the recognition.

Mr. Iacobucci stated he would like to place the catalog and resource guides on our websites. We can let the community know about these available partnerships. The partnerships are important and can create jobs and lead to potential internship opportunities for our students.

Mr. Ryder asked about the catalog from 2015. Mr. Iacobucci felt this catalog created by Amy Witbro was important to include even though it needs to be updated. All this information has been given to each administrator to give to any potential school partnerships.

Mr. Ryder asked if anyone is updating this 2015 catalog and this will be available on our website. Who should he contact with updates? This is something he would like to work with the PTO presidents. We have many partnerships like ShopRite that need to be included. Mr. Iacobucci added there are many updates that need to be made. We do not want to leave any partnerships out of the catalog. Send your changes to me and he will contact Amy Witbro about this.

Chairman Kruzel thanked them for the work they are doing.

Mr. Regnier would like to move the Head Start agenda item up on the agenda.

Goal Team #2 – Attract and retain high quality professionals to the Enfield Public schools and ensure all of Enfield’s educators demonstrate continuous improvements.

Mr. Drezek welcomed the members of Goal Team #2. The members on this committee are John Coccia, Jim Graham, Sarah Horan, Andy Longey, Michael Pescitelli, Brie Quartin, Steve Sargalski and Joel Senez.

He also reviewed the metrics for 2015-16, 2016-17 and 2017, 18.

Mr. Coccia reviewed our hiring brochure that is distributed during hiring fairs. We also follow up yearly with teaching colleges and attend various job fairs. We will finalize our documents over the summer for our upcoming orientation program based on feedback we have received from staff. We have begun developing a consistent building level orientation program. We give our new teachers a tour of Enfield, so they will understand Enfield and its history. The new teachers really enjoy this tour. The district is providing strategies for on-going systemic guidance and supports for our new teachers to succeed. We survey the teachers during a monthly basis to see how they are doing.

Ms. Quartin stated in effort to continuously improve our EPS Teacher Induction Program, we send out a monthly needs assessment survey to help us better understand and support new teachers as they familiarize themselves with our school/district policies and practices. We ask the teachers the same 3 questions each month. She reviewed the responses.

Mrs. Horan reviewed the best practices and teacher evaluation domain analysis results for areas of needed improvement. We want our teachers to have the necessary tools to be successful and grow as educators. We discussed these results with ADCO and have made some adjustments and training for teacher evaluation observations.

Ms. Quartin reviewed the work for developing our new teacher academy monthly agenda for the 2017-18 school year.

Mr. Pescitelli reviewed the survey and feedback from the new teachers. We will use this feedback to continue to adjust and plan for the 2018-19 summer orientation. Our program goal is to implement the new teacher academy that will allow for the district to provide strategies for on-going, systemic guidance and support for our new teachers. He also reviewed some of the teacher feedback responses.

Ms. Quartin added this has been a great group of new teachers to work with. She shared a quote from one of our new teachers – “Although you may not have been able to tell from our discussions and all of our suggestions, I think I can speak for all of us when I say we have appreciated these sessions and feel that they have been meaningful. I have felt very supported and welcomed by the district.”

Mrs. Hernandez loved the flyer. When the flyer is updated, it is important to mention that it has been created by our students. She asked if you could create a commercial for hiring with our audiovisual class. We are in a social media generation and anything we can do to bring Enfield to life would be beneficial. She would also like your tour to include a taste testing with

Collins Creamery and Smyth's Soft Serve.

Mrs. LeBlanc stated this is a great initiative and she loves what you are doing. This commitment from our high school teachers and this will keep us going. She is impressed with what you are doing. A lot of hard work has gone into this. Thank you for what you are doing.

Mrs. Riley thanked them for making our teachers feel valued as they step into our doors. This reflects on how we feel about our teachers. Thank you.

Mr. Neville added he has seen this evolving over many decades. He likes your academy for new staff and you are making changes to your program on the fly. Our new teachers are getting the support that is needed to make them successful teachers.

Mr. Ryder asked if they can invite the 2nd year teachers to your new teacher academy so they can let the new teachers know they made it and they can to. This can be very motivating.

Mrs. LeBlanc knows a student that will be graduating from college soon as a teacher. She can share this information about our new teacher academy initiative. This is something she is very proud of. What you are doing everyday makes us proud as Board members. You never cease to amaze her with your initiatives.

Mrs. Horan thanked her. She loves going to the job fairs. She has found the new teacher candidates are interviewing us. They are asking us what kind of supports you have for new teachers. We are ahead of everyone else with our new teacher academy initiative. We are ahead of many districts.

Chairman Kruzel stated keep this a secret.

Mr. Neville stated that Enfield is out in front with many of our initiatives and have found that many districts are copying what we are doing. Keep up the good work.

Chairman Kruzel thanked them for the phenomenal work they are doing. He is sorry for the technical difficulties tonight with your presentation.

We need to work together with the Superintendent, Police Department and Town Council to keep our children safe and to ensure something like this does not happen.
